

# Trees for Problem Sites

Over the years our customers have asked many questions regarding the selection, suitability, growing conditions and care of trees and shrubs. To help answer these questions we have put together a series of leaflets in excess of 28 categories, which we hope will help.

## ABC SELECTION

Plants, shrubs and trees in the Garden Centre, are laid out in alphabetical order to help with selection. Please do ask a member of staff if you are unable to find exactly what you are looking for. We can also take your order, if we are waiting for a delivery and then notify you when it's in stock. Popular seasonal plants under the covered areas are not displayed alphabetically.

## Trees for Problem Sites

### Trees for Clay Soil

NAME	COMMON NAME
